EVERYTHING YOU NEED TO PROFIT FROM THE INTERNET™

Welcome to this edition of the Arinda Newsletter

October brings our new in-room broadband internet solutions for hotels, resorts & apartment blocks

In-room Internet Launched!

It is with great excitement that we introduce a new solution for accommodation sites wanting to offer their guests high speed internet access directly in their guest rooms.

Today's travellers are looking for greater internet connectivity, and the advantage of our in-room internet access system is that your guests can enjoy fast internet access without having to leave the comfort of their room. This makes it ideal for business travellers & guests with young children.

Some businesses will be eligible for a FREE solution, paid for and operated by Arinda Internet. The systems are also available for purchase for sites which would prefer the extra revenue.

For more information call us on 1300 882 780 or visit our website at www.arinda.com.au

Free Internet Café Terminals

We are offering **free** internet café terminals to select sites on a profit-share basis.

If you operate a café, accommodation or tourism business then you may be eligible to host one of our coin-operated internet terminals. We supply all the equipment, we maintain and service the terminals, and we pay you a commission on all revenue earned.

Broadband ADSL2+ is here!

Arinda is now an ADSL2+ supplier! The much anticipated move to ADSL2 means that we can now supply even faster broadband internet connections to our business customers.

Transfer to Optus complete...

All of our broadband internet connections have now been transferred across to the Optus network, starting what should be a highly fruitful and long-term relationship with the carrier.

POS Thermal Receipt Rolls

Box of 24 thermal receipt rolls (80x80)

\$48.40

We pay commissions on any referrals so tell the world about our products!

Business Pack Launched!

In late September Arinda launched a new Internet Kiosk Business Pack for customers who want to build a business from coin-operated internet kiosks. The Business Package includes 2 days training on the Gold Coast, an initial stock of 5 internet kiosks, access to our wholesale pricing, and enrolment in our Distributor program.

Q1 2007/08 sets new sales records

The first quarter of this financial year has already set new revenue records for Arinda. Business revenues continue to grow at a whopping 350% per annum.

Distributors Urgently Wanted!

Arinda is receiving increasing sales leads from regional and international customers, giving rise to an urgent need for new Distributors and Agents in all areas. Even from in-land of Broome, to outback of Bourke, from Adelaide to Darwin. Further details are on our website, or simply call to discuss the opportunities available.

New graphic design team

We now have two experienced graphic designers available for our clients. If your business needs a new look, new logo, new business stationary, or photographic or promotional work, then contact us here at Arinda and our graphic designers will help you redefine your business image.

New Arinda logo

Thanks to our new graphic designers we now have a new Arinda logo. The new look - a curved keyboard circling the Arinda name - will hopefully convey our technology focus and market growth leading into the future.

Coming up....

- ✓ In the next eight weeks our new office will be opening on the Gold Coast.
- ✓ In 2008 we will be raising capital through a public share offering... so stay tuned!
