## What is it?

Our Surf Easy Disk Cloning Pack is a cloning/imaging/ghosting kit for you to quickly install and prepare new PCs ready for use in your internet cafe or internet kiosk.

Our technicians have meticulously prepared PC installations for almost all versions of Windows, fully loaded with Surf Easy and dozens of third party user programs. These installations are provided to you ready for you to clone/image/ghost onto your own PCs.

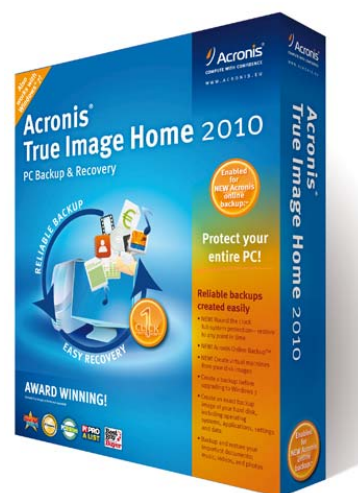

Using the included Acronis True Image software you can now fully install a new PC for your internet cafe or internet kiosk in less time that it takes to normally install Windows. This saves you hours of work! In fact, some machines can be imaged in as little as five minutes!

**The disk cloning process is a technical process and is recommended for advanced users. A training DVD is included, but the pack is suited to IT professionals.**
