

System Requirements

Surf Easy software has the following minimum and recommended hardware requirements:

Hardware

	Minimum	Recommended
Processor	Pentium 4 Do not use Intel Celeron and AMD Athlon processors	Core 2 Duo
RAM	512 MB for XP 1 GB for Vista	2 GB
HDD	40 GB	80 GB +
Display Size	15" (800 x 600 dpi)	19" (1280 x 1024 dpi)
Operating System	Windows XP or Windows Vista or Windows 7 32 bit or 64 bit	

Optional

Internet Connection	Dial-up, broadband (ADSL, ADSL2+), 3G, satellite, cable, fibre, wireless Minimum recommended speed is 512MB/s per PC Typical download traffic usage is 3 to 5GB per PC per month
Coin Validator	MicroCoin QL with TL4 PCI or TL4 USB or TL6 USB
Note Validator	MicroCoin GBA ST1 or GBA HR1 with TL6 USB
Cash Drawer	Posiflex CR-4105 USB
Printer	Surf Easy will work with most printers either attached directly to the PC or as a true network printer. However please note that the software does not support a printer shared from another computer, such as through Windows printer sharing.
Docket / Receipt Printer	Custom VKP, Citizen, or Epson TM thermal docket printers USB models are highly recommended because they are much faster
Touch Screen	LG 1510BF 15" LCD or LG 1730SF 17" LCD Surf Easy will work with almost any standard touch-screen
Wireless HotSpot	Arinda Wireless HotSpots, Mikrotik, or Netcomm
Network Equipment	Mikrotik, Netcomm, Netgear, Linksys or Cisco (avoid D-Link and Belkin)
AntiVirus Software	ESET NOD32 PC Tools AntiVirus and McAfee AntiVirus are NOT compatible
